3:30 PM	Room 3	<b>David Korsch</b>	Sport Fishing - Local Saltwater fishing and keeping a Log book	Local Saltwater fishing and keeping a Log book	A member of Shimano's field staff and a Scotty pro staff, David Korsch is one of Vancouver's most experienced saltwater guides; fishing is his obsession. Hundreds of hours each year were spent in pursuit of Chinook and Coho salmon and, in the process, a vast knowledge of their habits and movements was being created while his angling skills were honed. With more than 25 years of guiding experience, his attention to detail continues to make David a consistently productive charter skipper. In 2011 he became one of the first Certified Tidal Angling Guides in British Columbia, this new program was created to establish the best practices and standards for saltwater guides and ensures the highest level of customer service and safety standards. David's innate curiosity about what drives salmon to feed, his background in Fisheries Management and his desire to unravel all the intricacies of the winter fishery, drove him to create a detailed analysis of his catches. His catch data and analysis is information that any serious angler will find very interesting as tide, moon phase and barometric pressure results will have applications worldwide	Predator Charters
